

Coffee Sugar Packing Machine with Cup Dosing

Applicable to pharmaceutical, food, chemicals, pesticides, plastic products, and special industries, loose-type, inviscid granular materials automatic packaging. such as seeds, Chinese medicine, feed, granules, pellets, monosodium glutamate, salt, sugar, soup, cereals, tea, activated carbon, washing powder, and desiccant.

Features

Fully automatic feed metering, printing date, product output, and production process complete. Machine design is simple, performance stable, easy to operate, and daily maintenance. The price of the whole machine is economical and practical, it can be converted and opened according to a material metering device.

Parameter

Packing speed	30-55 bag/min
Bag size	(L)50-300mm (W)80-200mm
Bag type	pillow bag, stand-up pouch, pillow with hole pouch, continuous bag
Measuring range	50-1500ml
Max film width	420mm
Film thickness	0.04-0.10mm
Air consumption	0.4m ³ /min 0.6MPa
Packing material	Heat-sealable composite film (OPP/CPP, OPP/CE, MST/PE, PET/PE)
Power source	2.5KW/220V 50-60Hz
Overall size	1400×970×3000mm
Weight	960kg
