

MK-T50 Vacuum Packaging Machine

The MK-T50 vertical fill seal machine does not make bags, but rather fills products into premade pouches for a subsequent vacuum sealing performance. It is a fully automatic vacuum packaging piece of equipment for small dosages of granular items.

Packaging materials:

Premade pouch of thermal sealable composite film.

Features:

- Dual electronic scale improves working efficiency;
- PID temperature controller ensures more accurate temperature;
- SU304 stainless steel made material-contact parts enable product sanitation and reliability.

Additional Options:

- Packaging Line Feeder.
- Finished product conveyor

Technical Parameters:

- Type: MK-T50;
- Filling weight: 5-10g;
- Packaging accuracy: $\pm 0.2\text{g}$;
- Packing speed: 12-15bags/min;
- Measuring range: 3-10ml10ml (about 1-5g fannings);
- Power source: 220V, 50Hz, 1.6Kw;
- Weight: 180kg;
- Overall size: (L)725×(W)600×(H)1105mm;
- Air consumption: 15L/min, 4-6KG.
