

## **Link-600B Automatic Flow Type Pillow Bag Packaging Machine**

### **Performance and structural features:**

- ◆The whole machine is advanced in design, reasonable in structure, easy to adjust and operate, and easy to maintain.
- ◆Positioning standard of servo film conveying system, synchronous belt conveying film, stable and reliable
- ◆Automatic correction function, saving time and film, improving the possibility and intelligent speed of the whole machine
- ◆A variety of automatic alarm protection functions are provided to minimize loss
- ◆This machine is matched with the metering device to automatically complete the whole process of product metering, feeding, filling bag making, printing date, inflation (exhaust), and finished product transportation

### **Technical Parameters:**

<b>Model</b>	<b>Link-600B</b>
The power supply	220V 50Hz
Power	3.2KW
Packing speed	35-150 packets/min
Measuring accuracy	±1%
Packaging film width	600mm
The bag size	L : 140-400mm ; * W : 30-260mm ; *H : 5-110mm
The machine size	L 4200*W1000*H1520 mm
Weight	750KG
