

GZJ200 Tube Filling Machine

GZJ200 Tube Filling Machine is newly designed toothpaste tube filling machine. Based on foreign advanced technology, we made some improvement on its configuration and operation; it fill 200 tubes/min using servo motor, with high accuracy and stability. It has complete safety measures to protect equipment and personnel safety.

Specifications:

Type	GZJ200
Capacity(pcs/min)	160-200
Power(kW)	12
Tube Diameter(mm)	13-40
Tube Length(mm)	60~200
Dosing Volume(ml)	1.5-250
Compressed air(MPa)	0.6
Weight(kg)	4500
Dimension(mm)	2500x1500x2500
