

## Automatic Filled Capsule Inspection Machine CSA-15

Using the most advanced visual processing system combined with modern automation technology. perfect real precision and reliability in industrial field environment.

- Lightweight equipment, sensitive action, convenient operation can make the production line to achieve high speed, real-time.
- Automatic surface and internal defect detection, reduce labor intensity, Improve production efficiency.
- No heat generation, no secondary damage to the capsule.
- Simple and stable equipment, easy to dear the site, very convenient maintenance, great savings.
- Quiet and noiseless, creating a good working environment.
- The operation is simple, and it is very easy for staff to train and learn the operation.

### Specifications

Model	CSA-15
Test specification	00#、0#、1#、2#、3#、4#
Detect defects(regular capsule+transparent+translucent)	Less filling, holes, internal chips, cracks, notches, short bodies, double hats, Concave top, thin spots, short and long hats, bubbles, black spots/heterochromatic spots, etc
Check the accuracy	0.5mm
Maximum detection speed	150000 capsules per hour
Power	600W
Air pressure supply	≥0.5MPa
Ambient temperature	5°C~35°C
Ambient humidity	10%~80%
Overall dimension	750(L)x1200(W)x1420(H)mm
Weight	150KG
