- Adopt double insurance institutions, even boxes get stuck, no need downtime can also ensure synchronous machine operation.
- Running stability, high reliability, and almost no maintenance.
- Strong adaptability, one machine can complete dozens of specifications of packing box, the mould price is low, convenient fast and easy to replace.

Technical Parameters:

Model	GGB-200A
Packing Material	Cellophane(BOPP heat sealing film)
Packaging speed	40-80boxes/min
Packing size	L: 50-120mm
	W: 20-100mm
	H: 10-50mm
Power	220V 50HZ
Total power	4.5kw
Shape dimension	2000*790*1550mm
Machine's weight	750Kg
