

Rotary Granule Premade Pouch Packing Machine YQZD-200 / 300

Granule packing line mainly installs preformed pouch packing machine, computer combination weighed, Z type material conveyor with feeder, working platform and product conveyor, which is suitable for packing solid, granule and so on. Our rotary pouch-packing machine utilize the latest technologies to achieve the steady speeds and most accurately packaging effect.

Main Features:

- Wide range of pouches: All kinds of pre-made pouches such as flat and stand-up pouches (with/without zip).
- Easy to operate: PLC and color panel, fault indication on the panel.
- Easy to adjust: Only about 10 minutes to change different pouches.
- Frequency control: Speed can be adjusted by frequency conversion within the range.
- Water proof design: The machine surface can be washed down, so easy cleaning and longer useful life.
- No pouch/incorrect pouch opening-no fill-no seal, machine alarm.

- Machine alarm and stop when the inadequate air pressure.
- Safety guards with safety-switches, machine alarm and stop when the safety guards are opened.
- Hygienic construction, the product contact parts are adopted sus304 stainless steel.
- Imported engineering plastic bearings, no need to oil, no contamination.
- Oil-free vacuum pump, avoid the pollution of the production environmental.

Technical Parameters:

Packing Speed	20-60bags/min (Depended on the product and filling weight)
Bag Size	W:100-210mm L:150-300mm
Filling Range	5-1500g
Total Power	3.85kw
Bag Types	All kinds of compound bags, such as flat bag, 3-side sealing bag, 4-side sealing bag, zipper bag, stand up bag etc...
Overall Dimensions	4200*1800*2400mm
