

YB-BSL Semi Automatic Capsule Tablet Pill Counting Machine

Performance characteristics of yb-bsl semi-automatic counting machine: the machine is mainly used for counting and filling capsules, tablets, cod liver oil, granules, honey pills and other drugs or food.

1. When the bottles are placed at the discharge port, the motor drives the plates to rotate and the products fall into the bottles automatically.
2. Different specifications of products, only need to replace a few discs.
3. The noise is smaller (the minimum is only 20 dB when counting capsules), and the vibration effect is good.
4. The machine shell is made of 304 stainless steel, which meets GMP requirements.

Technical parameters:

Model	YB-BSL
Application size	15-500 ml
Production capacity	10-30 bottles/min
Pill diameter	Diameter: 3-25mm
Capsule specification	#0—#4
Filling accuracy	≤ ±1%
Power supply	1ph 220V, 50/60Hz
Power	80W
Net weight	45kg
Overall dimension	L420 × W420 × H780mm
