

## ***CB-800XS Multi-Functional Large Packaging Secondary Packaging Machine***

### **Standard features:**

- 1) Independent motors (Conveyor, center sealing), easy for maintenance.
- 2) Motion controller for quick response to various commands.
- 3) Accurate positioning.
- 4) Independent temperature control for center sealing and end sealing.
- 5) Food-grade contact parts.
- 6) Touch screen 7”.

### **Special features:**

1. Servo motor control (feeding conveyor, film pulling, knife cutting control).
2. Responds quickly to various commands.
3. Precise positioning of products.
4. Independent temperature control of the middle sealing mechanism and knife sealing mechanism.
5. The parts in contact with the product are made of 304 stainless steel.
6. Touch screen (human-machine interface) control.
7. Touch screen interface: parameter setting is simple and convenient.
8. Air-defense bag function: there is product start-up packaging, no product downtime waiting, saving packaging film.
9. Cutting material reversal function: when the product is cut, the sealing knife rebounds, the machine stops to protect the cutting knife.
10. Recipe function: can store 99 sets of packaging parameters (product position, packaging speed, bag length).
11. Unlimited product length.

## Technical Parameter

<b>Output:</b>	Up to 15-20 products per minute
	Product and film characteristics may affect machine output size
<b>Size Range:</b>	
Package cut-off length	60-6000mm
Product width	Max.390mm
Product height	Max.200mm
<b>Packaging Material Reel:</b>	
Reel diameter	≤300mm
Core diameter	≤75mm
Packaging material width	Max.800mm
<b>Connections:</b>	
Voltage	220V,50HZ
Power usage	5.2KW
Machine weight	900kg
Machine dimensions	L4200mm*W1400mm*H1450mm
Blade cut type	Intermittent(Up and down)
Motor configuration	Double servos
Optional Device	date printer, etc.
