

Natural Mineral Water Filling Machine CGF-series

Natural mineral water filling machine has compact structure, perfect control system, convenient operation and high degree of automation.

Introduction:

- 1) Natural mineral water filling machine has compact structure, perfect control system, convenient operation and high degree of automation.
- 2) Changing the shape of the bottle can be realized by changing the star wheel of the capping part and the arc guide plate.
- 3) The parts in contact with materials are made of high quality stainless steel, no dead angle and easy to clean.
- 4) High speed filling valve is adopted to ensure the accuracy of liquid level and no liquid loss.
- 5) Magnetic constant torque device is used for the capping head to ensure the quality of capping without damaging the bottle cap.
- 6) The natural mineral water filling equipment adopts high-efficiency capping system with perfect automatic control and protection device.
- 7) It is equipped with perfect overload protection device, which can effectively protect the safety of equipment and operators.
- 8) The control system has the functions of production speed control, missing cap detection, bottle clamping self stop and output counting.
- 9) The main electrical components are Mitsubishi, Schneider and other products of Japan, and the pneumatic components are AIRTAC products of Taiwan.
- 10) The operation of the whole machine adopts advanced touch screen control, which can realize man-machine dialogue operation.

Technical Parameters:

Model	Yield (Bottles/H)	Power	Size	Weight
CGF14-12-5	3000-4000	3 Kw	2180*1560*2200MM	3000 Kg
CGF18-18-6	5000- 6000	3.2 Kw	2360*1850*2200MM	3500 Kg
CGF24-24-8	8000-10000	5 Kw	3000*2000*2200MM	5000 Kg
CGF32-32-10	12000-15000	8 Kw	3500*2850*2200MM	7000 Kg
CGF40-40-12	15000-18000	12 Kw	4500*3750*2200MM	10000 Kg
CGF50-50-12	18000-22000	15 Kw	5200*4000*2200MM	12000 Kg
CGF60-60-15	20000-25000	18 Kw	5500*4500*2300MM	15000 Kg
