

Rubber Chain Bucket Conveyor

This new design bucket elevators feature a rubber chain system that make them cleaner, quieter, and more reliable than conventional metal chain elevators. Capable of running in extremely harsh and dusty environments, the systems are also vibration-free, abrasion-proof.

Technical Parameters:

Model	Rubber Chain Bucket Conveyor
Bucket Volume	3.7L
Machine Structure	Stainless steel or carbon steel
Production Capacity	10-30 m3/h
Machine Height	Customized
Discharging Height	Customzied
Hopper Material	Food grade ABS
Voltage	AC220V or three phase 380V, 50hz/60hz
Power Supply	0.75kw
