

BO-1-L L-shaped Conveyor

L-shaped Conveyor is made of stainless steel sanitary construction and food grade polypropylene (PP) belt, with good appearance, not easily deformed, bear high and low temperature. The conveyor allows for controlled feeds at one or more locations and can easily interface with various types of feeding devices.

Product Description

- This conveyor is suitable for connecting with auto weighting & packing line to convey the solid material.
- The conveyor is made of stainless steel sanitary construction and food grade polypropylene (PP)belt, with good appearance, not easily deformed, bear high and low temperature
- The conveyor allows for controlled feeds at one or more locations and can easily interface with various types of feeding devices.
- The conveyors are easy installation and disassembly, the belt can be washed by water directly.
- Customer design available.

Technical Parameters

Model	BO-1-L
Structure	Mild Steel/Stainless Steel
Overall belt width	400mm
Available belt width	300mm
Side board height	100mm
Middle baffle height	75mm
Discharge height	3198mm
Infeed height	490mm
Conveying speed	17m-25m/min
Belt Character	food grade plasticbelt
Voltage	3P 380V/ 220V,50Hz/60Hz
