

DKX20 Horizontal High-speed Small Carton Erector and Bottom Sealer Box Sealing Packaging Machine

Horizontal storage is adopted for storing carton blanks, for which carton blanks can be added at any time without stopping the machine

It's suitable for forming and sealing cartons of the same size. If carton size need to be changed, the operator should adjust the machine manually (finishing in 2-3 minutes)

It's rationally designed so that the forming, folding and sealing process are accomplished simultaneously

All the parts are precise and durable, without causing any vibration in running. Running steadily with long life

Light in weight, high performance and speed.

Technical Parameters

Model	DKX20
Carton size	L130-290mm, W80-180mm, H90-180mm
Table height	960-1000mm
Speed	10-30 box/min
Machine dimension	1800*1200*2000mm
Power Supply	220V 50-60HZ, 750W
Air source	About 200L/min, 0.5-0.7 MPa
Tape	W48-60mm
