

## TS-1/2 Paper Inserting Machine

Exclusively used in medical paper automatically feeding, length dispensing, cutting and inserting process.

- Strong compatibility, suitable for all kinds of specifications, all kinds of material round, flat, square, flat square bottle.
- It is convenient to change the bottle varieties, and can be automatically lifted and lowered.
- Adopt pneumatic paper stopper technology to avoid the pollution of machine to material.
- It has a number of detection and alarm control functions, such as no bottle work, fault self-check, paper changing roll warning, to ensure continuity and accuracy.
- Fully automatic operation, intelligent joint control with upper and lower processes, good coordination, no special operation, labor saving.
- Chinese or English control panel, can store ten groups of variety parameters, adjustment, use especially convenient.
- The control chip is originally imported from the United States, and the photoelectric sensing component is produced in Taiwan, which is stable and durable.

### Technical Parameters

Model	TS-1	TS-2
Max Capacity	30-50BPM	50-100BPM
The power supply voltage	220V/50HZ 0.65kw	220V/50HZ 0.75kw
Size	1600×750×1400mm	1600×750×1400mm
Main material of equipment	SS304	SS304
Control system	MCU	MCU
Compress Air	0.6 Mpa	0.6 Mpa
The weight	220kg	220kg
