

## RCGGF40-24-40-10 4 In 1 Fruit Juice Filling Machine

The fruit juice filling machine adopts the card bottleneck transmission technology to realize the processes of automatic washing, pulp filling, juice filling and capping, and the degree of automation is high. The fruit juice filling machine adopts single-cavity plunger type fixed volume filling technology, complete temperature control system and reflow system, complete automatic cleaning system and control program, and all parts in contact with liquid use high quality stainless steel.

The fruit juice filling machine is compact in structure, complete in control system, convenient in operation and high in automation. Filling adopts valve lifting technology, and the filling valve adopts the new micro-pressure filling principle, which is accurate and accurate.

The fruit juice filling machine is inspected to run with photo electricity, The juice filling machine is an idea-preferred equipment for beverage makers.

### Parameter

Model	RCGGF32-18-32-8	RCGGF40-24-40-10	RCGGF50-32-50-12
Production Capacity(500ml)(b/h)	10000-12000	15000-16000	18000-20000
Total Power(kw)	10.18	12.28	13.28
