

## *DZ-400E Vacuum Packing Machine Fish / Seafood / Fruits / Meat Sausage / Beef*

The vacuum chamber size of the DZ-400E is 420×420×100 mm (16.5×16.5×3.9 inches). It is ideal for homes, small supermarkets, small factories, fish markets, vegetable markets, grocery stores, food shops, and similar environments. The machine features two heating sealing bars with a sealing length of 400 mm (15.8 inches), doubling the efficiency.

### **Product Description**

The vacuum packing machine is an ideal vacuum packaging machine for small, flexible industries, suitable for homes, tea shops, meat shops, fresh food stores, bakeries, hotel kitchens, supermarkets, and dry goods stores.

### **Advantage**

- The sealer vacuum packaging machine Equipped with two heating sealing bars and a larger chamber, providing increased space and higher sealing efficiency.
- Made of stainless steel, ensuring safety, health, and prevention of bacterial growth.
- Features a 20m<sup>3</sup> vacuum pump with a larger motor for stronger suction.
- The acrylic glass cover can be customized in color.
- Controlled by a PCB circuit board.
- The automatic vacuum packaging machine is equipped with a detachable heating sealing strip, making it convenient to replace the heating wire and accessories.
- Compared to traditional packaging methods, the desktop vacuum machine improves packaging efficiency and extends food shelf life. Its compact design is suitable for small spaces, and it features a user-friendly one-button control panel for easy operation. The device is made of food-grade materials, ensuring safety and reliability, and offers multiple vacuum and sealing modes to accommodate different packaging needs.

## Description

The desktop vacuum machine is an efficient food packaging device that effectively removes air from the packaging bag, preventing oxidation and bacterial growth, thereby extending the shelf life of food. It is widely used in households, the catering industry, and small food processing businesses, suitable for packaging various types of food, including dry goods, frozen foods, and cooked items.

## Technical Parameters

Model	DZ-400E
Voltage	110/220V 50-60Hz
Pump Power	0.9kw
Pump Capacity	20m <sup>3</sup> /h
Sealing Length	400mm (x2)
Sealing Width	10mm
Chamber Size	420x420x100mm
Dimension	500x540x495mm
Weight	≈65kgs
Certification	CE ISO
