

G1WGD Semi Automatic Horizontal Type Pneumatic Filling Machine for Paste Cream

The G1WGD-1000 Semi-Automatic Horizontal Piston Filler is expertly designed to handle high-viscosity products such as pastes, thick sauces, creams, gels, and honey, as well as general liquid products. Its simple structure, easy operation, and high filling accuracy make it a perfect solution for semi-automating the filling process in the cosmetic, food, daily chemical, and pharmaceutical industries.

Technical Parameters

Feature	G1WGD (1 Head)	G2WGD (2 Heads)	G4WGD (4 Heads)
Power supply	220/110V 50/60HZ		
Air pressure	0.6-0.mpa		
Output (bottles/min)	0-40	0-80	0-160
Filling range (ml)	5-100ml, 10-300ml, 50-500ml, 100-1000ml, 500-3000ml, 1000-5000ml		
Power	50W	100W	200W
Hopper (L)	30L	50L	100L
Filling head	1	2	4
Dimension (mm)	1310*380*380mm	1310*550*380mm	1310*1010*420mm
Weight (kg)	35kg	55kg	90kg
