

SED-525-39Y-G GMP Standard Durable Automatic Rotary Tablet Making Machine

This tablet press is suitable for the pharmaceutical industry (except for explosive, flammable, and corrosive items). It can press granular materials that meet the tablet pressing requirements into tablets, and can also press circular, irregular, and double-sided engraved tablets. It is also possible to replace some parts and press double-layer sheets. Not suitable for pressing semi-solid, moist particles, low melting point, easily damp raw materials, and powder without particles

Features

1. The material of the machine is made of stainless steel with totally closed, the surface of turntable deal with polished and prevent cross pollution which meet the GMP standard.
2. It is equipped with Organic-glass perspective window for tablet producing observation. Each perspective window could be fully opened and easy for cleaning and maintenance.
3. It is adopts the import Frequency Timing with Electromagnetism Clutch.
4. Driving system is equipped with oil box and running under oil, easy for heat dissipation and wear-resistance.
5. It is equipped with Dust Collector as well, which avoid the dust emission, and recycle to save dust.

Product Parameters

Model		SED-525-39Y-G	SED-525-47Y-G
Dies		39	47
Max.Diameter of Tablet	mm	25	16
Turret Speed	min ⁻¹	16	
Max.Filling Depth	mm	18	
Capacity	tablets/h	74,88	90,24
Max.Working Pressure	kN	100	
Max.Pre-pressure	kN	30	
Voltage	V/Hz	AC 380/50	
Motor Power	kW	7.5	
Overall Dimension	mm	1300×1100*2160	
Weight	kg	3000
