

4 Side Seal Sachet Packing Machine for Powder TP-P401

This fully automatic packaging machine that is designed to prepare 4 side sealed sachet-type packages, and to place untouched non free flowing powdered products.

Cream, coffee, mix flour, powdered beverages, black pepper, powder, cinnamon, soups, yeast, milk powder, salep, dough, baking powder and similar products that have no self-fluidity can be packaged with precise screws with this filling machine model. The machine can produce 60 pcs/min using 2 channels and 120 pcs with 4 channels.

If readymade instant soup filling is present, the machine should have a single channel.

Applications

This machine is ideal for producing sachets for coffee, fine sugar, pepper, health tea, milk powder, instant soup etc.

The machine is controlled by PLC system and with a large touch screen. There is a clear man-machine interface that can be easily understood.

Provisions are made in the machine for intelligent protection to maximize the yield and reduce wastage while maintaining machine stability. The machine will automatically stop functioning and display the failure information in the event of temperature control failure, heater burn-out failure, photo-electric failure or even when the machine runs out of film.

All these advanced features make the machine very stable and easy to use, thus resulting in high yield and low wastage at a very attractive cost.

TECHNICAL SPECIFICATIONS:

Weight Range:	1-100 gr (Adjustable)	
Bag Width:	40-200 mm (Adjustable)	
Bag Length:	Max 170 mm (Adjustable)	
Filling System:	Auger Dosing	
	2 Lanes	4 Lanes
Speed*:	60 stickpack/min	120 stickpack/min
Application:	Suitable for packing non free flowing products, such as coffee cream, instant soup, lemon powder, instant drink powder, flour, powdery chemicals, medical powders etc.
