

YTSP Automatic Monoblock Filling and Capping Machine 2 in 1

Widely applied to various industries, like cosmetic, pharmaceutical, pesticide, daily chemical, food, petrochemical.

The machine is special purpose for filling and capping all-in one machine. It's fit for all kinds of bottles of materials and shapes. This machine is available for series of round and flat bottles. It adopts 304SS for filling, Automatic caps feeding and capping, and rising-and-falling screwing. The machine enjoys advantages of accurate measurement, stable screwing and easy operation, widely used in pharmaceuticals and cosmetic industry, meet the GMP. No bottle no filling fiction. No bottle no capping function. Customizable multiple filling and multiple capping.

Parameters:

Power supply	220V 50Hz
Filling Head	4
Capping Head	1
Caps diameter	20-80mm
Caps height	10-30mm
Bottle diameter	10-100mm
Bottle height	30*280mm
Ailling range	50-300ml
Speed	0-35 bottles/min
Filling Precision	$\leq \pm 1\%$
Air Supply	1.5m ³ /h 0.4-0.7 Mpa
Weight	500 kg
Dimension	2500*1100*1500mm
