

## *Automatic Capping Machine for Disposable Aluminum Caps ST-A4\_6\_8*

### **Application:**

Widely Used in Pharmaceutical, Daily Chemical, Pesticide, Cosmetics, Food, Health Care, Petrochemical Industries

### **Features:**

- No slot, no scratch on the sealing
- The sealing head adopts four claw (knife) balanced type, and put a even force when sealing, first make the cap deformation according to the bottle mouth shape, and then pushing thread and flanging
- Positioning devices of the bottle mouth ensures the bottle mouth is positioned to the sealing head accurately, to increase the utilization rate of caps
- Equipped with automatic cap arranging and cap hanging device, and can be equipped with cap loading device
- Sealing head is made from special stainless steel

## Technical Parameters:

Model	ST-A	ST-4	ST-6	ST-8
Production Capacity(bottles/hour)	2000	4500	6000	10000
Bottle Height(mm)	100-340			
Bottle Dia.(mm)	60-90			
Bottle Mouth Dia.(mm)	20-32			
Power(kw)	0.75	1.5	1.5	2.2
Dimension(mm)	1000x1100x1700	1300x986x1925	1500x1000x1925	1700x1100x2000
