

JAT-Y180 Circular Bucket Spiral Vibrating Feeding Machine

1. Hopper wall thickness 1.5mm frame. Material 304 stainless steel.
2. The screw barrel is selected for the pipe diameter of 102 sanitary tubes, polishing process is added.
3. The feed screw is full welding and polished, the blade thickness is 2mm.
4. RV reducer transmission, high efficient operation, long service life, high bearing capacity.

Product Parameters:

Model	JAT-Y180
To enhance the volume	3m ³ /小时
Hopper volume	180L
Feeding diameter	φ114
Lifting height(standard)	2.4M
Power	Three phase 220V 1.5kw
The whole weight	150kg
Hopper volume	L900xW900xH1000mm
Enhance the angle	45°(customizable30°-60°)
