- Electric box offer
 - a. Automatic or manual emergency stop, vibration bottom, speed bottom, running indicator, power indicator, leakage switch, etc.
 - b. The input voltage is 24V or below while running.
 - c. DELTA converter.

Specification:

Model	SW-B1
Convey Height	1800-4500 mm
Bucket volume	1.8L or 4L
Carrying Speed	40-75 buckets/min
Bucket material	White PP (dimple surface)
Vibrator Hopper Size	550L*550W
Frequency	0.75 KW
Power supply	220V/50HZ or 60HZ Single Phase
Packing Dimension	2214L*900W*970H mm
Gross Weight	600 kg
