

High Speed Pharmaceutical Blister Packaging Machines KWDPH-320HII

KWDPH320H II -S full Servo Roller Type High Speed Blister packing Machine, the fastest can complete 720 Blister/min. Through the digital HMI multi-task production mode, the super high speed roller type AL/AL blister packing can be achieved.

Main Features:

- Simple structure in linear type, easy in installation and maintation.
- Adopting advanced world famous brand components in pneumatic parts, electric parts and operation parts.
- High pressure double crank to control the die opening and closing.
- Running in a high automatization and intellectualization, no pollution
- Apply a linker to connect with the air conveyor, which can directly inline with filling machine.
