

DX270 Case Packing Machine

Functions and advantages

- 1) Can automatically complete case opening, product stacking, packing and sealing functions.
- 2) It combines grand structure and good appearance, can work reliably, automatically, safely and can be easily operated.

Operating speed	Max case packing speed:6 cases/minute
Dimension	L*W*H:3537mm*2604mm*2000mm
Weight	Weight:2000kg
Electricity	Power:3phase 380v50Hz
	Motor power:3.5kw
	Current:10A
	Min section of power wire:4 mm ²
	25A breaker is required by outer power supply
Compressed air	Pressure:0.6-0.7MPa
	Max volume:27L/Cycle
Vacuum requirement	Vacuum:120mbar
	Vacuum flux:>15m ³ /h
Mechanical noise	Less than 75dB
Packing range	Dimension of case: Min:220mm*150mm*230*mm
	Max:550mm*400*mm*390mm
	Dimension of product: Min:50mm*50mm*70mm
	Max:550mm*400*mm*240mm
