

## *Automatic Liquid Oral Rinse Bottle Filling Capping Machine*

We Reliance Machinery adopt the latest technology for the filling machine design and manufacturing, this monoblock with function of oral rinse liquid filling and capping machine is used for oral solution, oral wash, and mouth rinse in pharmaceutical and dental products.

### **Technical Parameters:**

1. 304SS and 316L GMP grade stainless steel
2. Professional design of one-way check valve for anti liquid dripping
3. Filling nozzles can filling from bottom to up design for bubbling products and foaming liquid
4. No bottle, no filling , no capping
5. PLC control + Siemens Touch Screen
6. Filling system 316 piston pump, ceramics pump, peristaltic pump as optional
7. Filling accuracy :  $\pm 0.8\%$  -  $\pm 1\%$
8. CIP function optional
9. Speed design from 30 bottles/min up to 120 bottles/min
10. Labeling machine as optional
