

APC-T1 Round Bottle Side Face Labeler

Abel pre-feeding system makes the label feed stable, stickup smoothly and label position precise. Equipped with human-computer interface and PIC control system, Ensure more stable operation and easier handling. Label-feeding adopt tension design to ensure that the coding quality, and can accurately control the length and uniformity of the label. The label-rolling and label pressing adopt different structure by different bottles shape to ensure the quality of the labeling.

Feature:

- All-cover type stainless steel host machine: the whole round bottle side face labeler is waterproof as well as rustproof.
- Adjustable cutter head: uniquely cyclotron cut-off, double sided cutting edge with a long service life.
- Single positioning center guide pillar: a more stable for label delivery.
- Synchronous bottle divider: a more stable transmission for bottle.
- Bottom set of label brush: a more precision for casting label.
- Label-controlling electric-eye shelf: unique combination of tail and electric-eye to improve the precision for cutting off the membrane materials.
- Push-button control cabinet: a more humanized operation.
- Independent feeding material shelf: the position of the material shelf is optional at will.

Data sheet:

Type	Output	Power supply	Pressure	Consumption air	Net dimensions	Weight
APC-T1	20-120	220V/50HZ/ 0.15kw	0.4	0.2	2000*700* 1650	280
