

Full Servo System Automatic Cartoning Machine ICM1204-S

Features:

1. Full interface intelligent touch interactive system, intelligent parameter setting and convenient operation.
2. The whole cartoning machine adopts open design, which is convenient to monitor running status and machine maintenance.
3. Germany Beckhoff servo drives system and control system to complete complex and precise movement.
4. The main electric components are all original international top brand with stable performance
5. The stick packs can be stacked to realize multi-layer cartoning

Technical Parameters:

Model	ICM1204-S
Cartoning Speed	less than 120cartons/minute
Carton Box Specification	L70-180mm*W25-105mm*H15-70mm
Power Supply	380V/50HZ
Total Power	6KW
Machine Size	L4220*W1360*H1560mm
Compressed Air Pressure	0.6Mpa
Compressed Air Consumption	30-90L/min
Weight	2500KG
