

## CPZH-120 Catoning Packing Machine

CPZH-120 Automatic Cartoning Machine applies to the encase packing of blisters, vials, cosmetics, poker and similar stuff. This machine can fold leaflet, open carton and insert stuff with leaflet into cartons, printing batch number and close carton automatically. It adopts horizontal configuration, PLC control system, photocell detector installed in each station enables stable running. If there is anything wrong with the machine, it can stop automatically and display the troubles so as to solve them in due time. The machine can be singly used or linked with blister packing machine to form a production line.

### Technical Parameters

Model	CPZH-120	
Power Supply	AC 380V 50Hz Triphasic 4 lines	
Total Power	1.5kw	
Capacity	30-100 Box/min	
Folder Speed	30-100 Box/min	
Air Consumption	20m <sup>3</sup> /h (pressure 0.5-0.7mpa)	
Packing Material	Carton	Weight: 250-350g/m <sup>2</sup>
		Max. size: 200x80x50mm
		Min. size: 70x30x15mm
	Operation manual	Paper weight : 55-65g/m <sup>2</sup>
		Max. size: 250x190mm(L×W) Min. size: 100x100mm(L×W)
Overall Dimension	3100×1350×1450 (L×W×H)	
Weight	1200kg
