

Automatic Bottle Filling and Capping Machine

This machine is a filling and capping machine is suitable for multi-species, multi-standard liquid filling and capping, PLC microcomputer control, with a friendly interface, simple operation, easy maintenance. Capping system with automatic cap, capping and other functions. All wetted parts materials and decorating materials used in all living quality stainless steel material, the surface of a polished appearance, generous, do not pollute the environment, comply with GMP standards.

Main features

1. This filling machine for a wide range.
2. This machine is suitable for industrial food, oil, cosmetics, medicine and so on.
3. Bottle size: ≤ 1 L
4. The machine is controlled by PLC and touch screen. Using piston filler.

Main Parameters

1. Power: AC 220V; 50Hz
2. Power: 1.5Kw
3. The production speed: ≤ 1200 bottles / hour
4. Bottle diameter: $\Phi 40\text{mm}-\Phi 100\text{mm}$
5. For the cover: $\Phi 20\text{mm}-\Phi 50\text{mm}$
6. Weight: 420Kg
7. Overall dimensions: 2400mm \times 1000mm \times 1800mm
