SL32B Tablet/Capsule Counter Filler

Product Description:

1. It can count accurately and fill round tablets, pills, capsules, transparent soft gelatin capsules, irregular pills into container bottles.
2. High speed: It has 32 channels that can reach 60-120 bottles per min.
3. The machine would auto-alarm workers when the bottles supplying is not enough or the bottles blocked. The machine would pause there. When the problems are solved, the machine can return back to normal. It doesn't need certain people to monitor it.
4. 3-stages dust collection design, the dust is removed when granules dropping, which avoid dust contamination.
5. Key pneumatic parts, especially integrated solenoid valve and cylinder for shutting door, are from Japan CKD. Ensures filling accuracy.
6. Use IR (infrared ray) dynamic scan technology, counting accuracy with alarm function when problems occur.
7. You can set the quantity of the drugs (15~9999) through the touch screen. Monitor the dropping status on each channel.

Technical Parameters:

Model	SL32B
Max speed (drugs/min)	12000
No. of channels	32
Filling quantity per bottle	15-9999
Bottle diameter, height	Φ 30~Φ 75mm, 40-250mm
Hopper volume	2x40L
Thickness, diameter and length	T3.5~10mm, Φ 3.5~15mm,
	L3.5~20mm
Compressed air supply	0.5MPa
Power supply	220V50HZ
Total power	1KW
Conveyor length	3000mm
Dimension	1900mmx3000mmx1670mm
Net weight	1000kg
