

Auto Liquid Paste Filling Machine with More Head

This is one of paste professional automatic filling machine, the material for filling in food, beverage, medicine, cosmetics industry, the material with sticky, non-sticky, corrosive and non-corrosive, foam and non-foam. Like Edible oils, lubricants, coatings, inks, paints, curing agents, adhesives, organic solvents, we will design exclusive customized solution filler, also for the filling machine, can add weighting unit, with press unit, with auto loading and unloading

Technical Parameters:

Technical specification	Descriptions
Driven type	electric and pneumatic
Voltage	AC220V 50Hz
Power	500W
Air pressure	0.5-0.7MPa
Filling range	10-100, 20-300, 50-500, 100-1000, 500-3000, 1000-5000ml
Filling nozzle	4 Nozzle(We also offer 2/6/8 nozzles)
Hopper capacity	about 200L
Filling speed	about 200-500bottles/hour/nozzle, base on different filling product and volumn
Filling error	≤1%
