HYBTB-300 Automatic Transparent Film Cellophane Wrapping Machine

Automatic Transparent Film Cellophane Wrapping Machine is mainly used in packaging of medicine, food, health care products, cosmetics, audio-visual products, and other industries. Such as kit, gum, health products, tea, sugar, condoms, rubber, mosquito coils, cigarettes, tape, VCD (CD) CD, playing cards, transparent soap, square battery, floppy disks, etc. That works for to anti-forgery, moisture-proof, can improve quality and increase additional value of products.

Main Features

- The structure of machine is compact and reasonable; performance is stable and advanced, easy operation and convenient maintenance.
- Adopts multi-function digital frequency inverter and stepless variable speed.
- The replacement of mold is convenient and flexible.
- It has automatic materials supply, counting and other functions.
- The transmission part is equipped with all kinds of protection device and fault alarm.

Main Technical Data

- Packing Material: BOPP film and gold tear tape
- Packing Speed: 40~80 packs/min
- Packing Size: (L)240× (W)120 × (H)60mm
- Electric Supply & Power: 220V 50Hz 5kw
- Weight: 500kg
- Overall Dimensions: (L)2000× (W)700 × (H)1400mm
