

Automatic High-Speed Double Sides Labeling Machine SF-200T

This is a high-speed double sides labeling machine, which can label both sides of the bottle, which is convenient and quick.

Application:

1. Multi-dimensional adjustment: Label head can achieve 8-D spatial accurate positioning adjustment.
2. Labeling head lateral translation: Micro-adjustment of labeling position can be realized by lateral translation of the label head.
3. All the regulating mechanisms can realize fast regulation.
4. The design of pressure roller is used to improve the tension of the label, especially for ultra thin label.
5. All structural parts are machined by numerical control, High precision matching of components to ensure accuracy grade of equipment.
6. Label clutch makes machine running more smoothly. Three-point label head up and down adjustment device make the adjustment more easily.
7. The special scraper support is easy to adjust.

Application:

Labeling speed	10-40 meters/min
Labeling accuracy	±1mm
Max label width	200mm (can be customized)
Applicable product size	Height≤400
Applicable inner diameter of paper	Φ76mm
Applicable outer diameter of paper	MaxΦ350mm
Dimension	3050L*1450H*1800Wmm
Weight	500kg
