## *GL-80 Glue Labeling Machine*

GL-80 is suitable for cylindrical container such as glass, plastic, PET bottle with paper label. The machine is economical and easy to operate. The performance is stable with a level off and good looking labeling result. The control system adopts convert motor system, the step of conveying bottle, supplying glue and sticking label automatically. This automatic labeling system is ideal for food & beverage, medical industry etc.

### **Features:**

- All mechanically operated design with all transmission mechanism in enclosed oil-bath thus smooth running, quite. Low drive and trouble free operations.
- Conveyer load lower top surface and turntable made of stainless steel durability and easy in cleaning
- Good for both individual operation and connection line
- Small floor spec. it is compact and easy moveable with casters.
- Most suitable for small standard of round bottle labeling in chemical.
- Pharmaceutical, food and beverage industries. The print unit can be added to the product according to the users need.

**Technical parameter:**

<b>Model</b>	<b>GL-80</b>	<b>GL-80D</b>
Labeling Speed	80 bottles/min (max)	80-160bottles/min
Label width	40-110mm	25-60mm
Label long	50-130mm	25-100mm
Glue water	Emulsion polymerization of vinyl acetate	Emulsion polymerization of vinyl acetate
Machine size	2100mm (L) x950mm (W) x 1000mm (H)	2270mm (L) x840mm (W) x 910mm (H)
Power	Ac220V or 380V, 1.5KW	Ac220V or 380V, 1.5KW
Weight	550kgs	700kgs
