

## *ABOX Automation – Model PD-ECO Pouch Inserter*

The ABOX Automation Model PD-ECO Pouch Inserter (Dispenser) is a highly cost effective way to insert small pouches into a large variety of bottles and containers with speeds up to 80 BPM. It can be used for desiccants, oxygen absorbers, Sensomatic security strips and a wide variety of other products. With its in-line design, the unit requires only 24 inches of production line space to operate allowing it to squeeze into a tight packaging line. The unit is also available with a gating system that is attached directly to the machine, allowing the entire system to be moved from line to line. The PD-Eco also comes with a 3-colour touch screen HMI that can offer both English and Spanish allowing for easy operation.

The unit is ideally suited for use in bottling lines, over-wrapping machines, vertical/horizontal bag forming machines, hopper dispensing, etc.

### **Features:**
