

SFZY-80 Automatic Capping Machine

Feature:

- Advanced HMI operation, PLC control;
- Capping speed is fast, precise and tight. The surface is made of 304 stainless steel.
- Hand wheel regulation; it can apply to varied bottle caps within the scope of this machine without replacement of parts by simply adjusting the synchronous belt, distance between caps and rack height
- It applies to varied plane caps of tall and short bottles which are round, square

Application:

- It applies to capping of plane caps of round, square and oblate bottles for food, medicine, cosmetics and chemicals;

Technical:

Item	SFZY-80
Cap diameter	φ15-55mm
Bottle diameter	φ20-55mm
Bottle height	100-320mm
Screwing speed	60-100 bottles/min
Power	AC220V 50/60Hz W
Pressure range	0.4-0.6Mpa
Host dimension	3300×600×1550mm (excl. elevators)
