

## KC-4 K CUP Filling Sealing Machine

The K CUP coffee capsule filling and sealing machine is suitable for filling and sealing containers with different specifications. From sending cups, sending filter, filling powder, level control, put the cover, twice sealing, push the cup, transportation for the automatic operation. This machine is a machine-speed automatic filling and sealing machine. According to user needs can also produce other a machine models. The machine electrical and pneumatic components adopt international famous brand, according to customer needs, can be equipped with PLC control.

### Technical parameter:

Filling capacity	2400 pcs/hour
Power	2 KW
Gas consumption	0.65m <sup>3</sup> /min
Voltage	220V/ 50Hz/single phase
Temperature range	0-300 °C
Weight	600 kg
Dimension	3300x900x1550mm
