

Vertical Forming, Filling and Sealing Machinery BT-series

This machine is suitable for the package of a wide range of material such as snack food, granule, powder, etc.

Equipped with multi head weighed--multi head weighing, filling and packing system, suitable to pack granule material and snack food

Equipped with auger filler--automatic powder filling and packing system, suitable to pack powder material.

Equipped with volumetric cup--automatic packing system with rotary volume cup

Characteristics:

* imported PLC full computer control system, man-machine interface, large display touch screen operation is easy and simple.

* Servo film pulling system, horizontal sealing servo control, accurate positioning and remarkable performance

* the machine with metering equipments automatically feeding, bag-making, filling, date printing, bag-making, inflatable (exhaust), counting, finished product output process.

* Bag-making forms: pincushion bag, vertical bag according to customers' requirements

Model	BT-320	BT-420	BT-520
Film width	Max. 320mm	Max. 420mm	Max. 520mm
Bag Length	80~240mm	80~300mm	80~350mm
Bag width	50~150mm	60~200mm	80~250mm
Packing speed	5~70 bag/min	5~60 bag/min	10~50 bag/min
Package range	150~800ml	150~1500ml	150~2000ml
Film thickness	0.04~0.08mm	0.04~0.08mm	0.04~0.08mm
Power Source	220V,50/60HZ,2KVA	220V,50/60HZ,2.2KVA	220V,50/60HZ,3KVA
Dimension	L)1185×(W)935×(H)1245	(L)1217×(W)1015×(H)1343	(L)1488×(W)1080×(H)1490
Machine Weight	550kg	650kg	750kg
