

Auto Cellophane Overwrapping Machine SGM-300

The Cellophane Wrapping Machine is specially designed for food and pharmaceutical industry, but can also be used wherever there is a need for wrapping boxes into cellophane or polypropylene film. The machine is connected to a conveyor that delivers boxes. It can be used in any industry as an independent Cellophane Wrapping Machine or as the final part of the line. Additionally, a date marker with hot stamp and tools for other types of boxes can be delivered. Two operators are required for the machine to function normally: the first one starts the machine and makes sure the boxes are properly positioned onto the entering conveyor, and the second one controls the accuracy, gathers the cellophane wrapped boxes on the exiting table and deposits them into the stock box.

Features:

1. Entry level machine, competitively priced
2. One level product infeed and outfeed
3. Electronically adjustable machine speed
4. Low-cost change-parts
5. Trailing edge seal system
6. Quick change-over facility
7. Flexible size-ranges
8. Easy operation and maintenance

Optional Items:

1. Tear tape application.
2. Printed film registration.
3. PLC+Touch Screen control system.

Main Technical Parameters:

Model	SGM-300	
Production capacity	20-50 (packs/min)	
Packing dimensions	L	60~280mm
	W	40~140 mm
	H	30~60 mm
Power supply	220V 50Hz	
Motor Power	0.75Kw	
Electric heating	4Kw	
Overall dimensions	2800×960×1600 (L×W×H) mm	
Weight	1000Kg
