

## *High Speed Horizontal Packing Machine For Hard Candy (Pillow Pack) JH-Z1205*

The JH-Z1205 is a horizontal high-speed wrapping machine for hard candy in fin seal (pillow pack). The products are transferred by the removal wheel and delivered to the segments of the cam chain. Two pairs of sealing rollers for the longitudinal seam and a cross sealing unit guarantee a tight pack. The standard version is equipped with automatic splicer to change wrapping material reels without stopping the machine.

### **Special features:**

- PLC control
- Servo control system (3 axis gang control)
- Infinitely variable adjustment of the wrapping material length
- Quick and simple size change by a few adjustments only
- 4 areas temperature separately control system, insert and detect visually
- High filling efficiency of the feeding plate (plate diameter 1050 mm)
- Tooth conveyor transmission drives
- All electrical and electronic components are located in a separate switch cabinet
- Multi-packs (up to 5 – preferably round products) are possible
- All food touch parts are in stainless steel
- Automatic splicer
- Incomplete multi-packs and mal-positioned products are ejected

**Technical Characters:**

Output	Up to 1200 pieces/min			
Product dimension	Length: 12 – 40mm	Width: 12 –30mm	Height: 5 –18mm	
	Diameter of ball shaped products: 15 – 30 mm			
Drive	3 servo drives		Longitudinal sealing	5.5 kw
			Cross sealing	
			Plate rotating system	
	3 AC motors		Brush drive feeding system	
System	MADE IN CHINA			
Utilities	Compressed air	0.2 mpa; 2 cbm/min		
	Temperature	Lower than 25°C		
	Humidity	Less than 50%		
Wrapping material	Heat sealable foil	Cold sealable foil		
Material dimensions	Reel diameter: max. 400mm	Reel width: max. 120mm		
Measurements	2378*1339*1672mm			
Weight	Approx.1000 kg
