

Juice Filling Machine (4 in 1) RCGFB-series

Fruit flesh hot filling equipment adopts bottle neck holding transmission technology to realize fully automatic sterilizing, bottle rinsing, pulp filling, juice filling and cap screwing. It employs single cavity plunger type of fixing filling volume technique and is equipped with perfect temperature control system, reverse-flow system, automatic cleaning system and control program.

Each machine element that contacts with the liquid is made of high quality stainless steel and food-grade rubber.

Technical parameter:

Model	RCGFB16-12-16-6	RCGFB18-12-18-6	RCGFB24-18-24-8
Number of Rinsing Heads	16	18	24
Pulp	12	12	18
Number of Filling Heads			
Fruit juice Number of Filling Heads	16	18	24
Number of Capping Heads	6	6	8
Rated Production Capacity	4000BPH	6000BPH	8000BPH
Installed Capacity	3.8KW	4.3KW	6.5KW
Overall Size	3050×2000×2400mm	3170×2070×2400mm	4070×2350×2400mm

Model	RCGFB32-24-32-10	RCGFB40-32-40-12	RCGFB50-40-50-15
Number of Rinsing Heads	32	40	50
Pulp	24	32	40
Number of Filling Heads			
Fruit juice Number of Filling Heads	32	40	50
Number of Capping Heads	10	12	15
Rated Production Capacity	12000BPH	15000BPH	20000BPH
Installed Capacity	8.7KW	9.5KW	12KW
Overall Size	5100×2600×2400mm	6250×3050×2400mm	7500×3900×2400mm
