

Water Bottle Rotary Adhesive Labeling Machine OL-06041R

Machine Advantages:

- Automatic rotary self-adhesive labeling machine for square container 3 surface surround labeling.
- Self-adhesive labeling widely used to cosmetics, daily chemical, mineral water, food, beverage, pharmaceutical, and other industries.
- Equipped with Japan Sanyo servo motor and Siemens PLC & programmable touch screen.
- Combination of advanced glue system and vacuum drum, ensure high precision labeling.
- Synchronous belt wheel drive system together with bottle infeed and outfeed through by screw and star wheel ensure high speed and stable labeling.
- Adopts cam mechanical rotary positioning, using the advantage of the bottle itself to find registration lug, greatly improve stability and accuracy of labeling.
- Label feed speed reach to 100 meters/min, labeling speed up to 4000 bottle per hour.
- Available to connect with filling machine production line, highly increased productivity and saving cost.

Machine Specifications:

Model	OL-06041R
Label size	Length 20mm - 500mm, Width 10mm - 200mm
Square Container size	6 & 8 Stations: L(40-150)mm*W(40-150)mm*H(50-300)mm 12 & 16 & 20 & 24 Stations: L(40-70)mm*W(40-70)mm*H(50-300)mm
Station optional and labeling capacity	6 stations - 4000BPH (OL-06041R)
Speed adjustment method	stepless speed adjustment
Max label feeding speed	up to 100 meters/min
Labeling tolerance	±1mm
Max lable diameter	350 mm
Paper core diameter	76 mm
Label type	Adhesive label
Label sations	6 stations
Max labeling speed	4000 bottles per hour
Electrical source	380V-480V 3Phase 50Hz-60Hz
Power consumption	4500 W
Machine dimensions	2800mm x 2500mm x 2050mm
Machine weight	2500 kg
