

GS-SK Servo Motor High Speed Packing Machine

The structural feature:

- ◆ PLC control with touch panel-step by step instruction.
- ◆ Equipped with servo winding system, pneumatic control system.
- ◆ The maximize to improve the whole machine precision, reliability and stability.
- ◆ Use intellectual temperature controller, the high temperature control to ensure neat sealing.
- ◆ The perfect automatic alarm safety protection, little waste. The machine will automatically complete all packaging processes from feeding, measuring, filling, Printing, finished bag.

Scope of application:

The machine can combine with weighing system of multi-head weighing, measuring cups device, manual feeding conveyor, spiral dosing machine.

It's suitable to use in packing the high accuracy and easy fragile material, such as: Potato Chips, crispy rice, Snacks, candy, pistachio, sugar, apple slices, dumpling, chocolate, pet food, small wares etc.

Specification:

Model	GS-SK420	GS-SK520
Packing speed	10-80 bags/min	10-80 bags/min
Bag size	(L)80-350mm (W)90-250mm	(L)80-350mm (W)90-250mm
Bag making mode	Pillow-type bag, standing bag, punching device	Pillow-type bag, standing bag, punching device
Range of measuring	1000ml	1500ml
The max width of packing film	420mm	520mm
Air consumption	0.2m ³ /Min 0.6Pa	0.2m ³ /Min 0.6Pa
Main power/voltage	5.0KW/220V	5.0KW/220V
Dimension	(L)1940×(W)1220×(H)1800mm	(L)1940×(W)1220×(H)1800mm
The weight of switchboard	550kg	650kg
