

KL-420A Automatic Weighing Packing System

1. KL-420 MAIN MACHINE (Adjust according packing size)
2. Ten heads combined scale
3. Z type material conveyor (including vibrate hopper)
4. Supporting platform
5. Finished product conveyor

Feature:

- The system can finish automatically all processes ,i.e Feeding, measuring, filling and bag making, printing date, product output.
- The machine structure is compact, rational, stable performance, easy operation and maintenance.
- The complete set of the machine is featured with fair price, stable performance.
- The machine adopts independent mixing system, is able to mix uniformly the material.

Application:

Suitable for packing fragile bulk material with irregular shapes and requiring high measuring accuracy, such as: puffed food, shrimp strip, potato chips, banana chips, apple flakes, crispy rice, biscuit, peanut, cooked seeds, sweets etc.
