

Ice Pop Sticks Pouch Packing Machine FBVM-480Y

PLC Controlled, equipped with piston pump filling system. Applicable for the liquid/sauce package.

Features:

- It integrates metering, bag-making, packaging, sealing, printing and counting.
- Standard positioning with servo film transporting system; stable for transporting film with two synchronous belts;
- High automation with auto correction function.
- Reasonable structure, convenient adjusting operation and maintenance.
- It is equipped with advanced level switch and static eliminator

Specification:

Model	FBVM--480Y
Packing speed	120-400 bags/min
Packing range	5-200ml
Film width	≤ 480mm
Making bag size	L: 45-150mm, W: 35-60mm
Packing accuracy	≤ ±1%
Power	2.8 KW
Power supply	AC220V, 50/60Hz
Seal type	3/4 sides seal, pillow seal
Net weight	500 KGS
Machine dimension	L600 × W790 × H1800mm
