

## *Double Sides Self - Adhesive Labeling Automatic Water Filling Machine For PET Bottle BJMTB-series*

### **Quick Detail:**

- For automatic labeling on any shape bottles for the pharmaceuticals, daily chemicals, food & beverages industries.
- The labeler will automatically detects the label size and bottle diameter and set the appropriate labeling parameters – a very useful feature for users with multiple products to label.
- It is an optimal combination of speed, accuracy, stability, GMP standards, ease of use, and flexibility.
- Backed by a strong engineering team who is ready to provide custom solutions for the unique production needs of different customers.

### **Technical Parameters:**

Label length	10–250mm
Label height	10–110mm
Labeler error	± 1 mm
Bottle shape	Any shape bottles
Machine size	2800×1650×1600mm
Weight	500KG
Power	1500W
Capacity	0-100bpm
