

Wine Cork Capping Machine

Automatic red wine cork sealing machine, suitable for all kinds of bottle red wine cork sealing.

Performance characteristics:

1. Simple operation, convenient maintenance and reliable quality.
2. The body is equipped with buffer device, which has no damage to the bottle and stopper.
3. With small power, high efficiency, energy saving and other characteristics.

Technical parameters:

Production capacity	3000 vials/h
Applicable bottle type	60-100mm
	H = 250-380 - mm
Machine power	1.5kw
Bottle mouth diameter	18-25mm
Machine weight	800 kg
Machine size	1000*1000*2200
