

## *20L Water Filling Machine XLWF060*

Automatic filling machine XLWF060 for filling plastic and glass bottles. The machine is used in food, chemical and pharmaceutical industries.

### **Technical Features:**

- a: Friendly HMI with easy switch for multi-languages
- b: Advanced reflection system by ceramic plate, heat-preservation system and heating system, preform can be heated evenly.
- c: Unique high-pressure gas recovery system that saves more than 30% of compressed air
- d: Ionized de-duster can be equipped to improve the cleanliness of the packaging container.
- e: The tailored made servo stretching system can be adapted to preforms with various stretching ratio, achieving the variable speeds and high accuracy positioning.
- f: The filling valve is designed with the tidy and safe valve body, the material quality can be fully guaranteed.

## Technical Parameters:

Model Number:XLWF060

Dimension(L\*W\*H):3600X2520X2360MM

Weight:3320KG

Certification:CE ISO

After-sales Service Provided:Engineers available to service machinery overseas

Keyword:water drink machine

Function:Blowing Filling

Filling material:Flowing Liquid

Bottle type:PET Plastic Bottle

Warranty:1 Years

Capacity:3000BPH

bottle volume:20L

Material:Stainless Steel 304/316

Processing Types:Automatic Bottle Filling Line
