

DKP-8 Vertical Particle Bottled Automatic Packing Machine

The machine adopts PLC program control, it can automatic into the bottle, out the bottle, automatic feeding, automatic weighing, filling, no bottle no filling, measuring precision. Applicable to the particles, micro particle materials drum or bottle, widely used in food, pharmaceutical, pesticide, chemical quantitative packaging, can using in the production lines with capping machine, labeling machine.

Technical Parameters:

1.Production speed	≤45 b/min
2.Filling volume	≤1000g
3.Measurement precision	±1.5%
4.Bottle(drum) diameter	≤120mm
5.Voltage	AC220V, 50/60Hz
6.Total power	2.5kw
7.Net weight	750kg
8.Dimension	1500 (L) ×1500 (W) ×2500(H)mm
